

MicroStation V8 Fundamentals

MicroStation 2004 V8 Fundamentals: Civil Edition—this 20 chapter, 700 page manual focuses on all the essential tools to achieve MicroStation mastery. The Civil Edition contains realistic civil engineering lab examples to complement the reference material. Civil discipline readers can now enjoy a self-paced learning environment with industry-praised authoring. Each manual includes a dataset CD with civil engineering examples.

MicroStation 2004 V8 Fundamentals: Architectural Edition—the newest of EnvisionCAD's courseware focuses on achieving Architectural MicroStation mastery. Lab examples, specific to architects, accompany fundamental MicroStation reference material. This self-paced learning structure is backed by industry-praised authoring. Included with each manual is a dataset CD with Architectural discipline examples.

Table of Contents

1. MicroStation Basics

- What is a MicroStation Design File?
- Starting MicroStation
- MicroStation Manager
- Creating Drawings
- Opening Drawings
- Saving Drawings
- Save Settings
- Closing Drawings

2. The MicroStation Graphics Environment

- MicroStation Interface
- Menu Pull-Down Options
- Tool Boxes and Tool Frames
- Showing/Hiding Tools
- Docking/Detaching
- Tool Settings

- Status Bar
- Workmodes
- Key-In Window
- Mouse Mechanics
- Delete Element Tool
- DGN File Settings
- User Preferences
- Modal & Nonmodal Dialog Box

3. Viewing Your Drawing

- Viewing Tools and How to Access Them
- View Windows
- View Groups
- View Groups Tool Box
- Saved Views

envision

SEE THE CAD POSSIBILITIES

4. Drawing Basics

- Starting a Drawing Command
- Basic Drawing Tools

5. Locks

- What is a MicroStation Lock?
- Activating Locks
- Locks Dialog Box
- Lock Toggles Dialog Box
- Frequently used Locks

6. Snapping

- What is a Snapping?
- Snapping with the Tentative Button
- Snapping with AccuSnap

7. AccuDraw

- AccuDraw Basics
- Toggle AccuDraw
- AccuDraw Window
- AccuDraw Compass
- Compass Axes
- AccuDraw Settings

8. Element Selection

- Element Selection Tool Box
- Fence Tool Box
- Select By Attributes

9. Modifying and Manipulating Elements

- Manipulate Tool Box
- Modify Tool Box

• 10. Complex Elements and Grouping

- What is a Complex Element?
- Creating Complex Element Status
- Dropping Complex Element Status
- Grouping

11. Levels and Attribute Control

- What is a MicroStation Level?
- Active Level
- Display of Levels
- Managing Levels
- Change Attributes Tool Box
- Element Information

12. Annotating Drawings

- Text Styles
- Text Tool Box

13. Models

- What is a MicroStation Model?
- Model Basics
- Design and Sheet Models
- Activating a Model
- Creating a Model
- Editing Model Properties
- Deleting a Model
- Importing a Model
- Copying a Model

14. Cells

- What is a Cell?
- Types of Cells
- Cell Library
- Creating a Cell
- Cells Tool Box
- Cell Selector

15. Patterning and Hatching

- Patterns Tool Box

16. Dimensioning

- Dimension Tools
- Dimension Styles
- Dimension Tool Box
- Editing Dimension Text
- Modifying Dimensions

17. Measuring

- Measure Tool Box

18. Referencing

- What is a Reference?
- Reference Dialog Box
- Reference Tool Box
- Additional Reference Tools

19. Printing

- Print Dialog Box

20. 3D Basics

- Drawing in 2D
- Drawing in 3D
